

3-Day Environment Field Trip

Minjerribah (Stradbroke Island) • 11–13 September 2026

A funder-led journey into the heart of Quandamooka sea Country.

Cruise from Brisbane across Moreton Bay to Minjerribah, on Quandamooka land and sea Country, for an immersive three-day add-on to the [Philanthropy Australia's 2026 National Conference](#). Staying at [Samarinda](#) and coinciding with the [Quandamooka Festival](#), this is on-the-ground learning at its best: a guided headland walk, hands-on engagement activities, and presentations from environmental funders and their eNGO partners on how philanthropy is delivering real outcomes for nature and community.

With themes spanning marine ecosystems and First Nations leadership, it is a rare chance to see philanthropic partnerships at work in the places where they matter most, and to leave with fresh insight to bring back to your own giving.

PLACES STRICTLY LIMITED • \$1,780 PER PERSON
